NPIC/TDS/D-1028-67  
19 September 1967

MEMORANDUM FOR: Chief, Support Staff, NPIC

ATTENTION : Chief, Logistics Branch, SS

SUBJECT : [REDACTED]

REFERENCE : Memorandum NPIC/TDS/D-1019-67, Dated August 1967

1. The subject contract with [REDACTED] is for the design, fabrication and delivery of a Wide-Field, High-Power Stereoviewer.

2. As outlined in the referenced memorandum, the instrument was delivered to NPIC on 27 July and at that time extensive testing and evaluation began.

3. The evaluation has uncovered certain deficiencies which render the instrument contractually unacceptable. Therefore, it is recommended that the equipment be returned to [REDACTED] for additional work.

4. Because of the complexity and sensitivity of the instrument, it was originally delivered to NPIC directly from the Contractor's facility via Air-Ride Van. It was merely strapped to the inside of the van without packaging or crating. The instrument is presently located in the Development Staff area, Room SS453.

5. Because of the urgent operational requirement for the subject equipment, it is requested that the requested return shipment be expedited to insure that this development can be completed as soon as possible.
